KĪMIYYA

WOMEN ACTRESSES OF DIALOGUE

Medal of the President of the Italian Republic

The role of women has always been at the center of the discussion of civil society and in particular of the **Anna Lindh Foundation**: the last ALF Forum in Malta emphasized the need to deepen the role of women as "**Main Actresses of Dialogue**": in particular, their relationship with **migration**, **democracy**, **economy**, **creativity**, **traditions**, **rights**, **education and peace**.

The Joint Action "KĪMIYYA: Women Actress of Dialogue", conceived and organized by the Fondazione Mediterraneo and 12 Anna Lindh Foundation National Networks adhere to it: Albania, Algeria, Bosnia and Herzegovina, Spain, France, Italy, Malta, Mauretania, Czech Republic, Lithuania, Slovenia, and Tunisia. The action aims to gather and deepen the work done so far by formulating concrete recommendations and operational guidelines, while enhancing the results of the previous work of the Fondazione Mediterraneo and the Anna Lindh Foundation and its Networks.

Women are the main "promoters" of connections between civil societies: by supporting their training, education and access to new tools and modern digital technologies, it will be possible to facilitate the intercultural dialogue in the Euro-Med region, reduce migration and address the causes of conflict. The name **KĪMIYYA** has been chosen because in the ancient languages of Mediterranean culture (Aramaic, Arab, Greek and other languages), it means "to embrace", "melt", "put together", "meet", "share" and "mix".
