

5+5 Civil Society Dialogue Forum

The Mediterranean Youth of The Anna Lindh Foundation: Advocacy, Debate & Action

(Marseille, 28th October 2016)

As the region's Central institution and reference point for intercultural dialogue, the Anna Lindh Foundation has spent more than a decade investing in the idea of cooperation between people across the Mediterranean region. Operating from Alexandria across the 42 Member States of the Union for the Mediterranean (UfM), the Foundation as intergovernmental institution working for and with the largest network of civil society across the EuroMed. has developed a unique capacity to play a bridging role, bringing together civil society and grass-root initiatives with regional institutions and opinion-leaders.

The Ministerial Meeting "5+5" Dialogue in Marseille is the first activity of communication and advocacy of the Anna Lindh Foundation to take place after the MED FORUM 2016, that will constitute the largest regional gathering of youth and actors from civil societies in order to discuss intercultural dialogue in the Euro-Mediterranean.

The MED FORUM 2016 has been built on a unique participatory process launched 18 months ago with the participation of intercultural experts and national coordinators of the civil society networks, and representatives of the youth sector interinstitutional steering group. Through this process, the programme and the strategic themes have been defined. And they will be the bases for future advocacy initiatives and to regroup the activity of the main strategic partners in the region as well as the international organizations. The MEDFORUM is set to be a catalyst for collaboration, creating a far-reaching coalition of regional civil societies and institutional players, and a platform for a wider debate on the way forward towards making the Euro-Med region a space for peace, cooperation and development.

At the initiative of the French Government, the 5+5 Civil Society Dialogue Forum, will be an opportunity for the Anna Lindh Foundation to present the results and the recommendations of the MED FORUM 2016 to the Ministers of Foreign Affairs of the countries who are part of this initiative: Spain, France, Italy, Malta and Portugal, Mauritania, Algeria, Libya, Morocco, and Tunisia.

In this regard the 5+5 Dialogue Forum presents a unique opportunity to engage Civil Society, Governments and Ministers in a debate on the wider regional agenda with inputs on the role of intercultural dialogue as a core component in international relations and on the necessity for the political actors to support the initiatives of the civil societies in this field.
