## MEDITERRANEAN MEMORIAE AWARD

*Special Edition 2025*

Awarded to

**Bosnia and Herzegovina**

### MOTIVATION

Bosnia and Herzegovina represents the value of democracy, based on religious tolerance and coexistence between different ethnic groups: it is an example of how different religions, including Islam and Christianity, can coexist. Its Constitution is an example of democracy, a model of power management that aims to involve the different components of society.

This country is one of the few in the world to have protected the “memory” of the past, demonstrating a great ability to overcome historical challenges and rebuild the country: to this end, it has created a strong sense of resilience in society, as demonstrated by the reconstruction of the Mostar Bridge.

For these reasons, the “United States of the World” and the “Fondazione Mediterraneo” confer on Bosnia and Herzegovina the “Mediterranean Memoriae Award - Special Edition 2025”.
